So, most people that have lost a loved one may see a bird or a butterfly that makes them think of them. Not my dad - yesterday I heard the horn of an antique car, I looked out the window and saw a 1920's/1930's roadster with rumble seat and all. For me, that was the sign from my dad, he would not be a bird or a butterfly he would be a car. He restored a 1932 Chevy Roadster and had a couple of corvettes so he was most definitely a car guy so I am the same. The horn to me was him letting me know he is ok and that I will be too.

Steven and I were friends for close to 70 years. Being his friend as a teenager will always be ingrained in my memory and my heart. He taught me to fly model airplanes and introduced me to Amateur (Ham) Radio and classic cars. I will never forget driving around town, sitting in the rumble seat of his car, promoting the movie Goldfinger in return for free tickets. Steven, memories of our time together will be forever with me. You will be missed by all who loved you, including me. I will miss our phone calls and hearing about Mary Ellen, your kids, and grandkids. Rest in peace, my friend. George
